ABOUT THE NORTHERN SPECIALIST FAMILY VIOLENCE SERVICE

The Northern Specialist Family Violence Service (NSFVS) is the lead provider for the integrated family violence service system in the Northern Metropolitan sub-region. The NSFVS provides support services to victim survivors of family violence and their children inclusive of cis gendered heterosexual women and, their children; this includes people from the Lesbian, Gay, Bisexual, Transgender, Intersex and Queer Community (LGBTIQ+) through a range of specialist family violence programs.

The service aims to support victim survivors and their children to remain safely within their community and maintain a life free of violence while also addressing the emotional and practical needs and issues arising from the violence.

Underpinning the service provided by NSFVS is a commitment to work within an intersectional feminist framework that recognises that gender inequality and the privileging of heterosexual, cis gendered masculinity drives violence against heterosexual, cis gendered women and their children and against people from the LGBTIQ+ communities.

The service acknowledges the social pattern of inequality in which violence and abuse is perpetrated. The service works from a framework that attempts to promote victim survivors' sense of self and encourage their own agency (empowerment). This framework incorporates an understanding of the multi factorial contributors to the experience of family violence by any individual.

This includes contextualising a person within their culture. In our work with Indigenous people we understand that colonisation and the resulting destruction of kinship networks, i.e. the targeted disruption to secure attachments through institutionalisation has resulted in significant transgenerational trauma which continues to impact on the Aboriginal community and influences the perception of the community towards services such as Berry Street.

The service also acknowledges that people from Culturally and Linguistically Diverse (CALD) communities bring experiences from their countries of origin and cultures (including political and religious status) and migration histories that require recognition.

This service acknowledges the power imbalance experienced by people with disabilities when they are dependent on others for their care. This imbalance increases vulnerability to all forms of violent and controlling behaviours.

The service has an appreciation of the negative impact of family violence on the development and well-being of children and adolescents.

The service operates within a collaborative and supportive team environment with a strong focus on partnerships with relevant external organisations.
