

Tips for applicants

- Answer each key selection criteria separately, but your response does not have to be long. A few sentences (or up to 300 words) is enough.
- Take a look at each key selection criteria and write a few sentences about why you think you are (or would be) good at the activity described.
- Write a few more sentences to give an example of how you have demonstrated this ability in the past. You can consider skills and experiences you have gained through work, school/study or in your day-to-day life.
- It is important to notice that the key selection criteria is asking about ability, not just experience, so even if you haven't done exactly what is described, you can tell us why you think you would be good at that activity.
- For the question about WHW's values (key selection criteria 1) take a look at the explanation of our values at the top the position description. You can write what you think about all of them or decide which one you relate to the most and let us know why.
- Add in anything about you that you think would help you to do this job well. Including any of the key professional and personal attributes we have mentioned above.
- If you have any questions, get in touch! We would be happy to hear from you and to assist.
