## ABOUT TAKE TWO

### Who we are

Berry Street started in Melbourne in 1877 and believes children, young people and families should be safe, thriving and hopeful. Take Two is a program of Berry Street providing trauma informed intensive therapeutic services for infants, children, young people and families impacted by trauma, neglect or abuse.

Take Two is also involved, in partnership with other community service agencies, in the provision of therapeutic foster care, therapeutic Family Violence services, Aboriginal therapeutic home-based care, therapeutic residential care, Stronger Families, Navigator and the Community Wellbeing Program. Additionally, the service also provides training, consultation and reflective practice to the wider Children and Family Services sector and conducts and disseminates evaluation research on Take Two's therapeutic services. Take Two is a flagship site of the Child Trauma Academy implementing the Model of Neurosequential Therapeutics to guide intervention planning.

The service is a consortium of:

- Berry Street – lead agency & child welfare expertise
- VACCA – cultural expertise
- Mindful (University of Melbourne) – practice development expertise
- La Trobe University – research expertise

Take Two operates from more than a dozen Victorian sites, including metro, regional and rural areas.

### Our therapeutic model

Take Two is the only fully accredited outreach program that provides a state-wide service for infants, children, young people impacted by trauma, neglect or abuse. Treatment approaches focus on the repair of harmful outcomes, and improvements in emotional health, relationships and development. We work with the traumatised child, and with their caregivers, families and communities. We help them understand the child's trauma, and how it's impacting their development and behaviours.

We use the Neurosequential Model of Therapeutics (NMT) to guide treatment and intervention planning. Based on current neuroscientific research, the NMT model helps us assess the impacts of the child's trauma on their developing brain and determine which interventions we should use to support the child. We then use evidence-based and evidence-informed interventions and treatments to support children who have suffered developmental trauma.

### What we do

Take Two provides individual, dyadic and systemic client facing services including:

- Intensive Therapeutic Service (children referred by Child Protection)
- Therapeutic Foster and Residential Care programs
- Stronger Families program (helping families keep their children out of out-of-home care)
- Restoring Childhood program (working with the child and the non-offending parent after family violence)
- Specific wellbeing programs for very vulnerable groups of children in our community, including; Aboriginal children, and young people who have disengaged with school.
- Fee-for-service program

Take Two also provides a range of research, practice development and consultation services. Our research has provided unique insights into what helps and what hinders children from overcoming childhood adversity.

Take Two is highly committed to providing culturally appropriate support to Aboriginal children accessing our services. We employ Aboriginal staff in dedicated positions and work closely with Aboriginal Controlled Community Organisations across the state.

Our Developmental Specialists Team (including a Neuropsychologist, Occupational Therapist and Speech Pathologist) provide individual client assessments and consultation.

## KEY ACCOUNTABILITIES AND RESPONSIBILITIES

ACCOUNTABILITY	SPECIFIC RESPONSIBILITIES
<b>Assessments</b>	<ul style="list-style-type: none"> <li>• Conduct assessments to understand the impact of trauma, neglect, and abuse experiences on the child’s development and functioning, including the Neurosequential Model of Therapeutics (NMT) metric.</li> <li>• A non-standardised assessment approach is used and generally involves assessing the individual child, collecting a brief history and context such as care arrangements, living arrangements, school arrangements, resources.</li> <li>• Administer and interpret standardised clinical measures such as ABAS, SDQ, Trauma System Check List (TSCC) and Ages and Stages.</li> <li>• Use of 5P for case formulation (Presenting, predisposing, precipitating, perpetuating and protective factors).</li> <li>• If specialised assessments are required the clinician will consult with their team leader for approval to ensure clinical governance.</li> <li>• Where a child is known to be, or is possibly Aboriginal, consultation with the Aboriginal Team needs to occur as part of the assessment process including completion of the Cultural Connection Assessment Tool.</li> <li>• Write a cohesive, succinct, timely report for multiple audiences –including the child, parents, carers, and Child Protection.</li> <li>• Develop a formulation, utilising the NMT, which forms the basis for a therapeutic treatment plan that includes goals and time frames.</li> </ul>
<b>Interventions</b>	<ul style="list-style-type: none"> <li>• Provide therapeutic interventions specified in the goal and intervention plan, in collaboration with the client, family and care team.</li> <li>• Use a variety of evidence-informed approaches appropriate to your client.</li> <li>• Treatment can be at the levels of the individual child, the family system, the care team system or a combination.</li> <li>• Key therapies provided are family or child psychotherapy (which is informed by principles of relational therapies), dyadic therapy between child and adult (to build and repair relationship) and psycho-education and systems work for carers, early childhood/education services and others included in the child’s therapeutic web.</li> <li>• Develop and sustain therapeutic relationships with and between the child and adults in the child’s therapeutic web.</li> <li>• Identify and respond to clinical risk as appropriate.</li> <li>• Conduct regular reviews of the therapeutic progress to recognise when the treatment goals have been met and the episode of care is completed and initiate case closure procedures.</li> <li>• Provision of secondary consultation and advice to non-clinical staff, carers and family members working in Care Teams.</li> <li>• Monitor and manage the clients emotional/physiological arousal during sessions.</li> <li>• Attends court and gives evidence that may include their professional opinion based upon assessment reports and professional observations on the child/young person’s development and relationships with significant others.</li> </ul>
<b>Teamwork</b>	<ul style="list-style-type: none"> <li>• Work cooperatively with the system that sits around the child – child protection practitioners, education providers, health providers, care givers and family, with a focus on advocating for the dignity and human rights of the client.</li> <li>• Clinicians work in a team to ensure the workplace is a learning environment and are required to share and listen to others.</li> <li>• Participate in case presentations and other clinical development opportunities to assist self and colleagues.</li> </ul>
<b>Administration</b>	<ul style="list-style-type: none"> <li>• Complete assessment, review and closure reports within Take Two guidelines and in agreed time frames.</li> <li>• Maintain up to date files, including timely and succinct case notes, and update data bases as required and expected.</li> <li>• Preparation of files for subpoenas and court as required.</li> <li>• Complete case reviews as requested.</li> </ul>
<b>Self and Organisation Development</b>	<ul style="list-style-type: none"> <li>• Participate actively in supervision. The Berry Street model of supervision encompasses management, support, development and mediation. It is not supervision to maintain professional standards. It is the forum to discuss clinical governance and risk and seek approvals and guidance as required.</li> <li>• Engage in workplace organisation training and initiatives of Take Two.</li> <li>• Engage in Communities of Practice and Friday Focus.</li> </ul>

<b>Other</b>	<ul style="list-style-type: none"><li>• Self-manage risk and safety in clinical practice and work environments.</li><li>• Berry Street are committed to the safety, participation and empowerment of all children, including those with a disability and culturally and/or linguistically diverse backgrounds.
