ORGANISATIONAL CONTEXT

ChildFund Australia is an independent international development organisation that works to reduce poverty for children in developing communities. We partner to create community and systems change which enables vulnerable children and young people, in all their diversity, to assert and realise their rights.

ChildFund's Sport for Development programs provide children with opportunities to play, learn and grow. Using integrated sport and life skills learning, young people from vulnerable communities are equipped to overcome challenges, inspire positive social change and take active leadership roles within their communities. Under ChildFund Australia's guidance, all Sport for Development programs contribute to achieving gender equality, reducing inequality, and ending violence against children, reflecting targets within the UN Sustainable Development Goals. Participants also develop critical social and emotional skills which help them to achieve personal goals, build empathy, manage emotions, develop positive relationships, and make responsible decisions. ChildFund is recognised as a Pioneer Organisation within the International Safeguards for Children in Sport, which ensure that children are physically and emotionally safe across sport. Work is undertaken with sports partners around the globe to ensure that the safeguarding of children and vulnerable adults in sport is a priority.

ChildFund Australia implements programs with a range of partners in Cambodia, Laos, Myanmar, Papua New Guinea, Timor-Leste, Vietnam, and other Pacific nations, and manages projects delivered by partner organisations throughout Asia, Africa and the Americas. ChildFund's work is funded through child and community sponsorship, government grants as well as donations from individuals, trusts and foundations, and corporates.
