Philosophy Statement

The Domestic Violence Action Centre (DVAC) has a long history in providing high quality services to women, children and young people who have experienced domestic and family violence in the Ipswich, Toowoomba and surrounding regions. DVAC works from a feminist perspective. We have a gender analysis of domestic violence that understands that domestic and family violence is a result of systemic power imbalances and inequalities. We acknowledge the many barriers that exist for women and their families as they seek safety and support, and that women from diverse backgrounds can face particular unique barriers. We are strong advocates for change on all levels. We actively stand against all forms of oppression (including racism, sexism, ableism, homophobia, and multiple other forms of oppression) and believe in the right of justice, equality and fairness for all.

We regard women as the experts over their own life and we see our work as a partnership that is respectful, transparent and accountable. We work from a relationship-based approach where we are committed to sharing information, validating choices and ensuring we provide a safe space that is always non-judgemental and supportive.

We aim to consistently apply the same set of values and principles to all levels of our work – with clients, with colleagues in our organisation, and in our valued relationships with other workers and organisations within the service sector. We aim for a high level of integrity in all aspects of our work and we welcome feedback and input from all those involved with our service.

Through high quality service delivery combined with education, training, awareness raising and activism against violence in all its forms, our hope is to use our passion as leaders to create a world free from gender violence.
