
About Us

Anglicare Victoria works with children, young people, individuals, and families. We prevent harm and empower people to overcome challenges and achieve their full potential.

We believe in families and know that with access to the right support every family can grow and achieve their goals.

We work with families towards positive change. Whether it be a helping hand in a time of crisis or providing longer-term support and care. We partner with local communities, the private and public sectors, and our donors to deliver better results.

Supporting tens of thousands of Victorians every year, our 2000+ staff and volunteers operate from more than 90 sites across the state, as well as delivering assistance online, at home and in the community. We are Victoria's largest provider of Out of Home Care and Family Services, and one of Australia's most innovative agencies in working with vulnerable children youth and families.

Family Violence

We provide and partner to deliver a range of protection and recovery services addressing both adult family violence and adolescent family violence, with a primary focus on the safety of women and children. Whenever issues of violence or abuse arise in families, the first step is to ensure that every family member is safe and protected from harm. Once that is achieved, counsellors and support workers can educate and equip families with new skills to help them move forward in a positive way. Family Violence services include office based, outreach, in-home, tailored, group work and a holistic approach for the whole family that aims to achieve better outcomes for families, in promoting the best interests of children. Individual and family work is complemented by group work where appropriate, and strategies to both engage families with their communities, as well as for communities to be more responsive to the needs of children and their families.

We also work with persons using family violence, with a focus on holding them accountable for their behaviour, keeping them visible and linking them to support services to support and foster change. We strive to provide an integrated service; the programs work in partnership with a range of other internal and external key stakeholders and programs. Our services are accessible, safe, and welcoming to people, providing quick and simple access to the support and safety they need.
