

Y Victoria

2030 Strategy

As a purpose-led organisation, we take action on issues bigger than our products and services in order to create a better tomorrow.

We achieve this by delivering impact across four key pillars:

Meaningful Work

Every person has the right to learn, engage in meaningful work and build sustainable livelihoods.

Community Wellbeing

Every person has the means to grow and thrive as individuals and in community.

Sustainable Planet

A world where we live in full harmony with nature.

Just World

Justice, peace, equity and human rights for all.

Our vision is a better tomorrow where all people can belong.

Our purpose is to inspire and empower young people and communities to thrive.
