About Wellways

For close to 50 years, Wellways has worked with people, families, friends and carers to create an inclusive community where everyone can imagine and achieve their hopes and potential.

Founded by families advocating for better mental health support, lived and living experience remains at the heart of everything we do. Today, Wellways is one of Australia's leading mental health, wellbeing, carer and disability services organisations, supporting people of all ages experiencing mental health challenges or barriers to their physical, social and emotional wellbeing.

We work alongside people in their recovery journey, recognising that every person is the expert in their own life. Our approach focuses on strengths, aspirations and opportunities for connection, supporting people to build the life they want and participate fully in their community.

Our teams bring together lived and living experience, peer support, psychosocial and clinical expertise. We value each perspective equally, recognising that meaningful support is created when different forms of knowledge and experience work together with the person at the centre.

Beyond delivering services, we work to strengthen communities and drive positive change through advocacy, partnerships and system reform. Guided by our values of honesty, acceptance, fairness, commitment and participation, we connect people, strengthen families and transform communities. To learn more, visit www.wellways.org.

About Program/ Service

Connected Care is a statewide, integrated mental health service delivered by Wellways in partnership with Stride Mental Health and Clarity Health Care and commissioned by Primary Health Tasmania (PHT). Operating a 'no wrong door' approach and based on stepped care principles, the service supports adults aged 18 years and over to access mental health care and support at no cost. A centralised statewide after-hours service provides additional access to support outside core service hours.

A multidisciplinary team brings together clinical, psychosocial and peer expertise and, through proactive care coordination, outreach and flexible delivery approaches, supports equitable access and provides seamless, holistic care. People are supported to access the right level of care at the right time and move between levels of support as their needs change, without unnecessary interruption supporting recovery, wellbeing, continuity of care and positive outcomes.

The service works in partnership with participants, families and service providers to create coordinated pathways across health and community services.

Connected Care is person-centred, recovery-oriented and stepped-care based, using the Initial Assessment and Referral Decision Support Tool (IAR-DST). It connects people to the wider service system to support their mental, social, physical and emotional goals.

About the Role

The Senior Peer Worker is responsible for guiding and supporting the peer ~~and psychosocial~~ workforce across the Connected Care. ~~hubs and their spoke practices~~, ensuring participants receive high-quality, person-centred, recovery-oriented care in accordance with organisational, contractual and legislative requirements.
