RECYCLEALL.COM.AU | INFO@RECYCLEALL.COM.AU | 0499 455 488

UNSUSTAINABLE STANDARD PROCESS

All rubbish on site goes into one skip bin

materials combined as **WASTE**

combined waste goes to landfill and little is recovered or recycled

- X PERMITS ARE REQUIRED
- X ACCESS ISSUES ON SITE
- X DIFFICULT TO MOVE AROUND

- X SITES LOOK DISORGANISED
- X GOOD MATERIALS GET WASTED
- X TRADES MAKE MORE MESS

- X NO WASTE TRACKING
- X ALMOST NOTHING IS RECYCLED
- X NO PLAN FOR THE FUTURE...

The construction industry accounts for 44% of Australia's landfill.
What can we do to improve things on our construction sites?

All construction waste is sorted into identifiable bins

materials collected as **RESOURCES**

materials are re-purposed with processing partners

RecycleAll

the cycle continues...

recycled products delivered to site

new products manufactured with recycled content
